

Slam Latch - Wide Body Series 709W

This rugged slam latch is ideal for applications that require a quick and effortless locking mechanism, such as truck and trailer doors, drawers and tailgates, as well as medical and farm equipment.

To engage simply “slam” the door shut. The spring-loaded pin is square with an angled edge that smoothly retracts as it engages with the keeper and then extends back into place in a locked position. To release, grip the handle and pull back.

Special forms, offsets, hole sizes or welding projections are available to your specifications.
