

Slam Latch Series 708

This rugged slam latch is ideal for applications that require a quick and effortless locking mechanism, such as truck and trailer doors, drawers and tailgates, as well as medical and farm equipment.

To engage simply “slam” the door shut. The spring-loaded pin is square with an angled edge that smoothly retracts as it engages with the keeper and then extends back into place in a locked position. To release, grip the handle and pull back.

Special forms, offsets, hole sizes or welding projections are available to your specifications.

*Designates dimensions can be altered to meet your specifications.

PIN

P	Pin Size	.437
* E	Extension	.750
R1	Handle Length	1.000
R3	Handle Extension	1.250

BODY

L	Length	2.000
* W	Width	1.625
T1	Thickness	.125
T2	Thickness	.120
* H1	Hole Location	.250
* H2	Hole Location	.375
H3	Hole Location	1.250
H4	Hole Location	1.125
* D	Hole Diameter	.203

MATERIAL

C = Stainless S = Steel

FINISH

Most commercial finishes are available, including zinc on steel, passivate and electropolishing on stainless steel.
